

Research Equipment (co)funded by the Slovenian Research Agency.

## Research Equipment

### Equipment

Multiagent set consisting of a group of mobile robots

### Contact or responsible person

Name and Surname	Gregor Klančar
Department:	LMSV&LAMS
Tel:	01 4768764
e-pošta:	<a href="mailto:gregor.klancar@fe.uni-lj.si">gregor.klancar@fe.uni-lj.si</a>

### Purpose of equipment and additional information

Robots can be used to design multiagent systems where group of robots solve some task like coordinated motion or object manipulation, environment inspection and the like. One of such demonstration application is also robot soccer.

### Access to equipment

Equipment is available at LAMS, Faculty of electrical Engineering, Tržaška 25, Ljubljana.

### Price of equipment use

88,25 EUR / h
